

While school is currently closed, our teachers are actively working on plans for continuing the education of our current students during this time with the help of multiple technological supports. We will be continuing direct instruction through the use of You Tube videos as well as live Zoom conferencing with our students and families. Once the current “shelter in place” is lifted, we plan on resuming school as usual on campus.

Currently, the office is still open, with modified hours, and staff are available to connect with you if you have questions about current or prospective students. Feel free to call the office at 530-537-2401. If you leave a message, someone will respond as soon as possible. You can also reach us by emailing [info@legacyschoolauburn.com](mailto:info@legacyschoolauburn.com). If you are a new family considering Legacy for your child, please check out the “Why Choose Legacy” and “Our Campus” sections under the **About Us** tab on our website. We would love to connect with you and answer any questions you might have.

Your patience and prayers are appreciated as we navigate these uncertain times together!
